CAUTION EXTRA A man by the name of CLAPP has engaged with a young man of the name of S. P. Toyvasend, and uses he same to put up a Sarsaparilla, which they call Dr. Town send's Sarsaparilla, denominating it GENDINE, Original etc. This Townsend is no doctor, and never was; but was formerly a worker on railroads, canals, and the like. Yetho assumes the title of Dr., for the purpose of gaining credit for what he is not. This is to caution the public not to be deceived, and purchase none but the GENUINE ORIGI MAL OLD Dr. Jacob Townsend's Sarsaparilla, having on

It the Old Dr's. likeness, his family coat of arms, and in signature across the coat of arms. Principal Office, 102 Nacsau-st., New York City.

THE ORIGINAL DISCOVERER OF THE Genuine Townsend Sarsaparilla. Old Dr. Townsend is now about 70 years of age, and has long been known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL "TOWNSEND SARSAPARILLA." Being poor, he was compelled to limit in manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the control of the proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, po-claimed its excellence and wonderful

HEALING POWER. Knowing, many years ago, that he had, by his skill, science and experience, devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time has come, the means are supplied; this GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration.
Unlike young S. P. Townsend's, it improves with age, and
never changes, but for the better: because it is prepared a
scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the an edge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. The Sarsaparilla root, it is well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which if retained in preparing it for use, produce formentation and acid, which is injurious to the system. Some of the properties of Sarsaparilla are so volatile, that they entirely evaporate and are lost in the preparation, to those experienced in its manufacture. Moreover, they volatile principles, which fly off in vapor, or as an exhalation, under heat, are the very essential medical property

solored liquid, which is more from the coloring matter i the root than from any thing else; they can then strai this insipid or vapid figuit, sweeten with sour molasses, and then call it "SARSAPARILLA EXTRACT or SY-RUP." But such is not the article known as the GENUINE OLD DR. JACOB TOWNSEND'S

SARSAPARILLA. This is so prepared, that all the inert pro Sarsaparilla root are first removed, every thing capable of ecoming acid or of fermentation, is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the Cure of innumerable diseases.

Hence the reason why we hear commendations on every side in its favor by men, women, and children. We find it TICNS, PIMPLES, BLOCTHES, and all affection IMPURITY OF THE BLOOD. It possesses a marvellous efficacy in all complaints arising from Indigestion, from Acidity of the Stomach, from unequal

circulation, determination of blood to the head, palpitation of the heart, cold feet and hands, cold chills and hot flasher over the body. It has not its equal in Calds and Congha; and promotes easy expectoration and gentle perspire relaxing stricture of the lungs, throat, and every other part But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of It works wonders in cases of Finer Albus or Whites, Falling of the Womb, Obstructed, Suppressed, or Painful Measure Irregularity of the menstrual periods, and the like; as

P. Townsend's inferior article? This young man's liquid is not to be COMPARED WITH THE OLD DR'S,

because of one GRAND FACT, that the one is INCAPA BLE of DETERIORATION, and \*NEVER SPOILS, while the other DOES; souring, fermenting, and bleving the bottles containing it into fragments; the sour, acid liquid exploding and damaging other goods! Must not this horn Dyspepsia but acid? Do we not all know that when food sours in our stomacks, what mischiefs it produces? flataings, Fever Sores, and all ulcerations internal and external It is nothing under heaven, but an acid substance, which sours, and thus spoils all the fluids of the body, more of less.
